Next Generation Award

Pre or Post-doctoral/Junior Faculty Nominator Information

The following questions should be answered by the nominator and then combined with the answers and materials provided by the nominee(s) to form a single document, which may then be submitted via SfN’s nomination site.

1.) Please describe the need(s) met by the nominee’s activity and whether the activity produced a lasting effect.

2.) Were any neuroscience education materials were generated to complement this activity? If so, please describe how they were effective?

3.) Please describe the chapter’s involvement in implementing the activity, if any.

4.) How was the activity received among the nominee’s colleagues and the community?

5.) Will this activity continue into the future?
