

Exhibitor Advisory Committee (EAC)

Exhibitor Advisory Committee (EAC)

The purpose of the Exhibitor Advisory Committee (EAC) is to foster communication between SfN and its exhibitors, specifically to:

- Review and comment on current and proposed exhibit regulations and practices affecting exhibitors
- Advise ways in which the exposition could be improved for exhibitors and attendees
- Identify additional information useful to exhibitors
- Provide a forum for exhibitor feedback

The EAC is comprised of members from the product categories with largest exhibitor representation. Members of the EAC may serve up to a four-year term. The committee meets once a year on the Tuesday during the exposition. Exhibitors are encouraged to make their viewpoints and concerns known to SfN and/or a Committee member. Exhibitor Advisory Committee members are as follows:
