

Next Generation Award

Junior Faculty Nominee Information

The questions below should be answered by the nominee and provided to the nominator (along with any materials required by Question 5) for submission via the SfN nomination site.

- 1) Please describe the activity you organized or implemented that has prompted your nomination for this award. This activity may have occurred at any time during your involvement with your chapter. In your description, please include information about the following:
 - a. The process of developing and implementing the activity, including the individuals involved with the implementation
 - b. The approximate number of people in the community affected by your activity.
- 2) Please explain the need(s) that prompted the development of this activity. Were you able to meet needs to produce a lasting effect?
- 3) What feedback did you receive after the activity (e.g. from the community, fellow chapter members, other colleagues)?
- 4) Do you intend to continue this activity? If so, please explain the preliminary plans to repeat this activity and any measures to be taken to improve upon the previous activity. Additionally, please explain the timeframe in which the activity will be implemented (e.g. annually, monthly, daily, etc)
- 5) Were neuroscience education materials generated to accompany this activity? If so, please explain the development of these materials and the process by which they were distributed. Additionally, please include up to two examples of these materials with your completed questions.
