

CLINICIAN-SCIENTISTS AND CONTINUING MEDICAL EDUCATION (CME)

At Neuroscience 2019, a wealth of sessions will focus on translational and clinical research in neuroscience. The Meet-the-Clinician-Expert sessions (pg. 17) will give attendees a behind-the-scenes look at factors influencing a clinician-scientist's work. Three Basic-Translational-Clinical Roundtables will discuss research topics related to exoskeletons and robotics for neurological rehabilitation, gene therapy as a way to treat rare diseases and neurodegeneration, and mechanisms of addiction. (pg. 11). Additionally, the Clinical Neuroscience Lecture (pg. 8) will analyze a topic in neuroscience with clinical significance. Attendees can also access the clinical neuroscience curated itinerary (available this summer), which will highlight sessions focusing on translational research. Clinician-scientist attendees can opt to earn up to 35 *AMA PRA Category 1 Credits™* while taking advantage of SfN's robust programming. Register for SfN's CME program during registration or onsite at the meeting.

Physicians: Improve Competencies While Earning CME Credit

The SfN annual meeting is a forum for the education of physicians in the field of neuroscience. By attending select lectures, symposia, minisymposia, and roundtables, physicians receive both a broad overview of the field and detailed information about the most recent research and advances in specific areas. Abstracts for each plenary session contain brief descriptions of the material to be presented. By attending these events, physicians can better understand the basic science that underlies clinical practice.

Statement of Need

It is important that physicians gain competence in the basic science that underlies clinical medicine, and the SfN annual meeting is the premier venue for acquiring this foundational knowledge. Physicians learn about the latest discoveries regarding the brain and nervous system.

Global Learning Objective

Physicians will integrate research on the mechanisms, treatment, and diagnosis of conditions related to neurological and psychiatric diseases and disorders into their diagnostic and therapeutic modalities of practice to determine the best treatment for the patient.

Accreditation

SfN is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CME Registration

CME registration must be completed before or during the annual meeting. Those who do not register before the conclusion of the meeting will not be able to request CME credits. Two weeks before the meeting, CME registrants will receive an email about the CME Supplemental Program that contains important details regarding the CME program, including disclosure information and instructions for obtaining CME credits.
