Code of Conduct
If attendees experience unwelcome or unsafe situations anywhere in the city, attendees should swiftly contact local authorities (dial 9-1-1). Additional local social services resources are listed in one convenient location at the federal website www.changingourcampus.org.

Any official report of a violation of the code of conduct should be brought to the designated Human Resources Officer in the SfN headquarters office in the convention center or sent via email to hr@sfn.org. The HR Officer will facilitate the completion of a report by a complainant.

Complimentary SfN Shuttle Service
With shuttle bus service operating every 10 minutes during peak time and 20 minutes during off-peak time, you can conveniently travel between your official SfN meeting hotel and the convention center. For Neuroscience 2019, SfN offers a fleet of shuttle buses dedicated to your travel. With the exception of hotels within walking distance of McCormick Place, shuttle service will be available to all SfN contracted hotels. In addition, because of Chicago’s commitment to successful large meetings, some shuttles operate on a dedicated travel-free “busway” from downtown to McCormick Place.

Public Transportation
Chicago offers two options for public transportation: Metra (the commuter train system) and CTA (the “L” light rail system). Metra, with stops within walking distance to many of the SfN-contracted hotel rooms, has a stop inside McCormick Place. SfN has contracted with Metra to provide additional train service for Neuroscience 2019. Free Metra passes will be available to all attendees. If you opt to take the L, also convenient to many Neuroscience 2019 hotels, the Cermak - McCormick Place station (Green line) is the closest CTA stop to McCormick Place. SfN will provide a complimentary shuttle service between the Roosevelt station (Red, Green, and Orange lines) and McCormick Place.

Taxis
With more than 6,500 vehicles, Chicago has the second largest taxi fleet in the country. Discounted shared rides are available between McCormick Place and downtown. In addition, a taxi dispatch center is located within McCormick Place to ensure cabs are readily available to meet demand.

Science Knows No Borders

In keeping with the Society’s commitment to facilitate global collaboration in science, SfN has established the Science Knows No Borders (SKNB) program. The program will allow scientists denied U.S. travel visas to present their research and engage with colleagues at Neuroscience 2019 through poster and nanosymposia sessions.
