---

## Rules and Regulations

Exhibitors agree to abide by the contract conditions published in the prospectus and on the SfN website and by all conditions stipulated by Walter E. Washington Convention Center.

Exhibitors accept responsibility for informing all of their employees and agents of these conditions and agree that they will abide by them.

## Eligibility for Exhibiting

The purpose of the Society for Neuroscience exhibit program is to further the education of scientists working in the field of neuroscience. Exhibits must be of an educational character. Exhibits must emphasize instruments, products, or services for use in teaching or research. Books or other publications in fields of relevance to the professional interests of the Society's members and meeting registrants are also considered acceptable.

The character of the exhibits is subject to approval by the Society. SfN reserves the right even after an application is received to refuse applications not meeting standards required or expected, as well as the right to curtail or to close exhibits or parts of exhibits that reflect unfavorably on the character of the meeting. This applies to displays, literature, advertising, novelties, souvenirs, conduct of persons, etc.

Applications from companies that have not previously exhibited at a Society annual meeting will be reviewed by the Society for eligibility before assignment is made. Please complete the [First Time Exhibitors Form](#).

The materials required for review are:

- Website with the following: Background information on company
  - Promotional brochures/literature for all products and services to be exhibited
- 

## Booth Assignment

Applications for exhibit space are subject to approval by the Society for Neuroscience. **To take advantage of priority points, applications must be received by May 29 (NEW DATE)**. Applications received after **May 29 (NEW DATE)** may still obtain space, if available. If more than one company has the same number of priority points, assignments will be made in date and time order applications are received. First-time exhibitors are assigned space after those with priority points, based on the date the application is received.

---

## Priority Points System

Priority in booth assignment will be conducted according to a point-based system. Exhibitors receive one point per 10 ft. x 10 ft. space purchased, for a maximum of five points for exhibiting. In the case of company mergers, SfN will use the priority points of the company with the highest number of points accrued. Additional points may be accrued by becoming a [Sustaining Associate Member \(SAM\)](#), advertising in the Exhibit Guide, *JNeurosci* and *eNeuro*, *Neuroscience Nexus* and *Neuroscience Quarterly*, renting the Annual Meeting Registration list, and by becoming a corporate supporter.

Priority points accrue per year as follows:

Sustaining Associate Members (SAM)	Platinum Members – 3 points	Gold Members – 2 points	Silver Members – 1 point
Advertisers in <i>JNeurosci</i> and <i>eNeuro</i>	1 point per \$1,000 for advertising with a maximum of 5 points		
Advertisers in the Exhibit Guide	1 point per \$1,000 for advertising with a maximum of 5 points		
Advertisers in <i>Neuroscience Quarterly</i>	1 point per \$1,000 for advertising with a maximum of 5 points		
Advertisers in <i>Neuroscience Nexus</i>	1 point per \$1,000 for advertising with a maximum of 5 points		
Corporate Supporters	1 point per \$1,000 for support with a maximum of 5 points		
Registration List sales	1 point per \$5,000 for list sales with a maximum of 5 points		

---

## Booth Selections and Assignments

The floor plan should be carefully reviewed and six exhibit preferences selected. Avoid concentrating all choices in one area. Indicate these choices on the application for space. Since prime locations sell quickly, alternate acceptable booths should be indicated. If the selected booths are not available at the time the application is received, the exhibitor agrees to accept the space assigned.

The Society reserves the right to modify the floor plan and reassign exhibit space if a change in the original assignment is necessary.

---

**Sharing Space**

No subletting or sharing of exhibit space is permitted. Exhibitors may not release or assign any of their contracted space to another company.

Exhibit Management must be notified in writing of such changes, including public announcement of the transaction.

---

**Co-Marketing**

If two or more companies wish to be assigned exhibit space adjacent to one another, each company must submit the request under comments on the exhibit application with an explanation of why you would like to be located next to each other. Exhibit Management is not responsible for accommodating adjacent booth assignment for exhibit space applications that arrive separately or without documentation. Upon receipt of the application, the exhibit space assignment will be made by averaging the co-marketing companies' priority points. Exhibit Management will locate adjacent space based on the best use of the exhibit floor space. Requests for specific locations may not be honored.

If two or more divisions of the same company wish to exhibit together, they may exhibit under one company name. All housing, badges, and Exhibit Guide listings will be conducted in one name only. Multiple housing blocks are not permitted.

Violations will incur a reduction in points for each regulation violated.

- First regulation violated will result in the company not accruing priority points for the year.
- Second regulation violated will result in the company losing one-half of its accrued priority points.
- Third regulation violated will result in the company losing all of its accrued priority points.
- Fourth regulation violated will result in the company not being eligible to exhibit at future Society meetings.

Below is a list of common violations that cause exhibitors to lose points if a violation occurs and is not corrected.

- Tearing down prior to **Wednesday, October 28** at 5:00 p.m. EDT (closing of Neuroscience 2020)
- Exceeding the height limit (see Booth Information section)
- Entering a competitor's booth space

Photo and Video Release	<p>Taking of photographs in the exhibition hall is strictly prohibited except for booth photography contracted through the official show photographer. An exhibitor may not photograph or videotape the exhibits or product of other exhibitors.</p> <p>By attending/exhibiting at Neuroscience 2020 or its associated events, you hereby authorize SfN to use any such photographs, videotapes or other recordings of yourself and your guests for any promotional purposes and to license other relevant people/organizations to use them. The Society for Neuroscience, Walter E. Washington Convention Center and The Expo Group are not responsible for loss or damage to exhibitor property. Exhibitors wanting to stay past the published times for move-in will need to hire security for their booth.</p> <p><b>Security Tips</b></p> <ul style="list-style-type: none"> <li>▸ Have a booth representative available when your freight is taken off the truck to verify the condition of freight and receipt of complete shipment.</li> <li>▸ When your freight arrives at your booth, do not unwrap expensive items and giveaways and leave for lunch/dinner. Secure these items.</li> <li>▸ Do not set up your booth, with your giveaways and laptop computers before the first day of the show. If you are concerned about corporate espionage, do not leave a one of a kind prototype in your booth overnight.</li> <li>▸ If you must leave during show hours and are the only person manning your booth, ask a neighboring exhibitor to watch your booth until you return.</li> <li>▸ The second highest number of thefts occur during move-out. When the show closes, secure your items. Label your boxes correctly.</li> <li>▸ If you have several boxes, shrink wrap them.</li> <li>▸ Stay with your freight until it is loaded.</li> <li>▸ If you have it, odds are, someone else wants it. Theft is a crime of opportunity.</li> </ul>

**Badge Scanning** SfN will continue to use the QR code only and not the bar code previously used on badges. The information in the QR code is limited now to First Name, Last Name, and Company. See the details below of how this will work for exhibitors.

---

**CDS Lead Retrieval Unit** If an exhibitor is online, they will receive FULL contact information at the time to scan (CDS handhelds are always online). Apps and the PC system can be run in online or offline mode.

If an exhibitor is not offline, then they will only see what is in the QR code. However, exhibitors can still do the qualifiers and make notes. When the unit goes online, exhibitors can sync up with the system to post all leads. Then the information will download to the unit with the full contact information.

Some exhibitors sync up at the end of the day (recommended) and some at the end of the show. CDS offers a wifi connection at their desk in case you need to sync during the day. There will also be wifi in the exhibit hall for exhibitors and attendees.

---

**Third Party Lead Retrieval Units** If an exhibitor uses their own lead retrieval unit, they have two options. They can use the CDS API which is a direct sync to the CDS system and receive full information at the time of the scan. Alternatively, exhibitors can scan and collect the first name, last name, and company and then send CDS the file at the end of the show and the scanned information is pulled out of system and a complete file is sent back via data conversion.

Below is the information exhibitors will receive in their full lead file regardless of which option they choose.

<b>Badge ID</b>	<b>First Name</b>	<b>Last Name</b>	<b>Degree</b>
<b>Title</b>	<b>Company</b>	<b>Street 1,2,3</b>	<b>City</b>
<b>State</b>	<b>Zip</b>	<b>Country</b>	<b>Email – If attendee opted in</b>

Demographic questions (7) and answers if completed.
