

Ctrl #	Abstract Title	Sess #	Pres #	Sess Type	Session Title	Sess Day	Sess Time	Poster #/ Room
12037	Brain-gut microbiome profile of neuroticism predicts food addiction in obesity: a transdiagnostic approach	141	141.1	Poster	Dynamic Neurovascular and Activity Changes in the Brain	Sunday	8-12	Z13
13778	Examination of Addiction Related Pathways in a Primate Model of Self Injurious Behaviors	146	146.2	Poster	Behavioral Phenotypes and Neural Mechanisms of Relevance to Psychiatric Illness	Sunday	8-12	II14
12396	Diversity in human use of prototype learning and discriminative attention during latent-state generalization	159	159.2	Poster	Human Cognition and Imaging: Learning Mechanisms	Sunday	8-12	WW14
4752	Features of hydroptic changes and reorganization of rats of the sensorimotor cortex of neural complexes during ligation of common carotid arteries	192	192.2	Poster	Network Interactions	Sunday	1-5	C39
3808	Long-term effects of early life stress and adolescence psychostimulant use on adult emotional regulation and underlying neurocircuitry: a nonhuman primate study	221	221.1	Poster	Effects of Early Life Stress on the Brain and Behavior	Sunday	1-5	Z14
1673	Revealing the effect of subcallosal ACC deep brain stimulation on brain-wide networks in non-human primates	228	228.1	Poster	Animal Models of Relevance to Psychiatric Illness and Treatment II	Sunday	1-5	KK1
10539	Transcranial electrical stimulation for selective intervention in task-switching and performance monitoring in monkeys	235	235.1	Poster	Behavioral and Neural Processes Associated with Executive Function and Inhibitory Control in Animal Models	Sunday	1-5	TT9
14210	The first neurons of the human forebrain	351	351.1	Poster	Cell Lineage, Fate, and Migration	Monday	1-5	A23
5077	Closed-loop optogenetic control of seizure activity and opsin optimisation using inhibitory opsins	365	365.2	Poster	Epilepsy: Networks and Oscillations	Monday	1-5	F13
5977	Texture coding in higher order somatosensory cortices	383	383.2	Poster	Thalamic and Cortical Processing in the Somatosensory System	Monday	1-5	Y11

12021	Tactile stimuli-delivering systems allowing active touch for fMRI study with humans and electrophysiology with non-human primates	383	383.2	Poster	Thalamic and Cortical Processing in the Somatosensory System	Monday	1-5	Y12
6684	Neural mechanisms underlying responses to short term monocular deprivation in primary visual cortex	387	387.2	Poster	Plasticity in the Visual System	Monday	1-5	DD11
12429	Learning alters neural activity to simultaneously support memory and action	428	428	Nano	Experience-Dependent Plasticity: Gaining Insights Into the Neural Capacity to Adapt	Tuesday	8-11:15	SDCC 5
11529	Operationalizing situational awareness in policing: an eye-tracking study	637	637.1	Poster	Visual Behavior	Wednesday	8-12	Virtual Only
3139	A fine scale and low invasive marking method for use with conventional tungsten microelectrodes	747	747.2	Poster	Methods for Studying Brain Structure and Function	Wednesday	1-5	XX32
6018	A chronic head-fixed ferret preparation for uncovering the properties of feedforward connections between LGN and V1	747	747.1	Poster	Methods for Studying Brain Structure and Function	Wednesday	1-5	XX30
