SfN will award priority points prior to Neuroscience 2016. Exhibitors receiving exhibit space assignments for Neuroscience 2016 and found to be in violation during Neuroscience 2016 will have their assigned exhibit space released. The exhibiting company will have to select another exhibit space before the second priority point deadline (May 5).

Below is a list of common violations that cause exhibitors space assignment to be released if a violation occurs and is not corrected.

- Tearing down prior to 5:00pm Wednesday, November 16 (closing of Neuroscience 2016)
- Exceeding the height limit
- Entering competitors booth space
- Obstructing the view of a neighbor’s booth

**Exhibit Space Selections and Assignments**

The floor plan should be carefully reviewed and six exhibit preferences selected. Avoid concentrating all choices in one area. Indicate these choices on the application for space. Since prime locations sell
quickly, alternate acceptable booths should be indicated. If the selected booths are not available at the time the application is received, the exhibitor agrees to accept the space assigned.

The Society reserves the right to modify the floor plan and reassign exhibit space if a change in the original assignment is necessary.

Exhibit Management is not responsible for accommodating adjacent booth assignment for booth applications that arrive separately or without documentation.
