At Neuroscience 2017, attendees can enjoy a wealth of sessions focused on translational and clinical research in neuroscience. The Meet-the-Clinician-Expert session (pg. 19) will give attendees a behind-the-scenes look at factors influencing a clinician-scientist’s work. Three Basic-Translational-Clinical Roundtables will discuss research topics related to Parkinson’s disease and deep brain stimulation; biomarkers and neuroimaging in schizophrenia; and strategies to optimize healthy aging (pg. 11). Additionally, those interested in translational research can attend the Clinical Neuroscience Lecture (pg. 7) and make use of the clinical neuroscience curated itinerary (available this summer) which highlights those specific sessions.

Physician-scientist attendees can also opt to earn continuing medical education (CME) credits while taking advantage of SfN’s robust programming. Sign up for SfN’s CME program during registration or on site at the meeting.

**Physicians: Improve Competencies While Earning CME Credit**

The SfN annual meeting is a forum for the education of physicians in the field of neuroscience. By attending select lectures, symposia, minisymposia, and roundtables, physicians can receive both a broad overview of the field and detailed information about the most recent advances and research on specific topics. Abstracts for each plenary session contain brief presentation descriptions. By attending these events, physicians can better understand the basic science that underlies clinical practice.

**Statement of Need**

It is important that physicians gain competence in the basic science that underlies clinical medicine, and SfN’s annual meeting is the premier venue for this educational opportunity. Physicians learn about the most up-to-date, cutting-edge discoveries regarding the brain and nervous system.

**Global Learning Objective**

Physicians will integrate the latest information and research on the mechanism, treatment, and diagnosis of neurological and psychiatric disorders into their diagnostic and therapeutic modalities of practice to determine the best treatment for the patient.

**Accreditation**

SfN is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

**CME Registration**

CME registration must be completed before or during the annual meeting. Those who do not register before the conclusion of the meeting will not be able to request CME credits. Two weeks before the meeting, CME registrants will receive an email about the CME Supplemental Program, which contains important details such as disclosure information and instructions for obtaining CME credits.
